

Clearmac®

CASE STUDY

Location

James Paget Hospital, Great Yarmouth, Norfolk

Material

Red/Green Clearmac® cold-applied paving

Why Clearmac®

An attractive coloured surface was required for an inner courtyard garden area to be used by patients.

The surface was required to have suitable properties for use by patients using walking sticks, particularly good friction.

Clearmac® cold-applied Red and Green macadam was laid and gave a smooth finish with a fine surface texture enabling a good slip resistance even when wet.

The natural stone colours of Clearmac® strongly complemented the garden planting and design.

Size

120m²
