

Clearmac®

CASE STUDY

Location

Pulham St Mary Church, Norfolk

Material

Clearmac® hot-applied Gravel paving (GR2)

Why Clearmac®

Loose pea gravel has traditionally been used as a surfacing material for footpaths and entrances to churches. The natural colour of the Clearmac® flint gravel used blended perfectly with the surroundings of the churchyard.

Recent legislation requires that easy access to churches must be provided for disabled and wheel chair users.

Clearmac® surfacing satisfies the requirement of providing a high quality surface finish with no loose aggregate making it suitable for wheel chairs whilst keep the appearance of a natural gravel finish

Size

250m²
