

CASE STUDY

Ayton Products

Clearmac®

Location

The Norfolk Police HQ, Wymondham
(Project Glebe)

Material

Clearmac® hot and cold-applied gravel paving
(GR1, CL001)

Why Clearmac®

The architect responsible for the design required a fully bound paving to be laid on the pedestrian footpaths, which would visually separate them from vehicle areas and lighten the outside aspect of the building.

Clearmac® paving had the advantage of using a Norfolk Gravel Aggregate which was in keeping with the planting and other hard landscaping and also gave a high quality and durable natural aggregate finish.

The high quality finish that can be achieved with Clearmac® cold-applied paving achieved the design requirement for a high profile entrance laid in section with granite setts.

Size

Clearmac® cold-applied gravel CL001 to front entrance - 500m²

Clearmac® hot-applied gravel GR1 to rear pedestrian areas - 1600m²

Project particulars

Date: Nov 2001
Main Contractor: Balfour Beatty
Design: Building Design Partnership,
Manchester
Contact: Lindsay Humblet
Tel: 0161 834 8441
Ground works: May Gurney

Other surfacing including Fibre deck to parking spaces - May Gurney
